

Customer experience journey map

Use this framework to better understand customer needs, motivations, and obstacles by illustrating a key scenario or process from start to finish. When possible, use this map to document and summarize interviews and observations with real people rather than relying on your hunches or assumptions.

Created in partnership with

customer journey map

Project: Visualizing and predicting heart disease with an interactive dashboard

Scenario Healthcare app customer journey map	Entice How does someone initially become aware of this process?	Enter What do people experience as they begin the process?	Engage In the coremoments in the process, what happens?	Exit What do people typically experience as the process finishes?
Steps What does the person (or group) typically experience?	Login through the gmail create account by entering mall and password, after verified by OTP, user will be logged in login through the google app searches user's facebook id.if it exist, user will be logged in login through the google account. If it exist, user will be logged in	create account by entering mail and password, after verified by OTP, user will be logged in app searches user's facebook id.if it exist, user will be logged in app searches user's google account.if it exist, user will be logged in	User can enter their medical record and symptoms to keep update of their health condition By data analytics, user gain a knowledge of their health reports	Rating Suggestion and Feedback reviews
